

VEROGEN
TRUTH FORWARD™

Verogen Forensic Genomics System Half Day Workshop

21 Feb 2020 at 14:00, Univ Tor Vergata, Roma

TIME	SESSION
14:00	Welcome & Introduction <ul style="list-style-type: none">• Verogen & Unimed• Host Institute Introduction - Pr Emiliano Giardina
14:15	Forensic and MPS - Pr Emiliano Giardina
14:45	Lecture: Introduction to Verogen Forensic Genomics Solutions <ul style="list-style-type: none">• Limitations of current methods• Advantages of MPS methods for forensic analysis• Workflow overview & library prep kit introduction
15:10	Lecture: Understanding the MiSeq FGx System <ul style="list-style-type: none">• Introduction to the MiSeq FGx• Overview of sequencing by synthesis• Understanding sequencing terminology
15:30	Coffee Break
15:45	Live Software Demo: ForenSeq Universal Analysis Software <ul style="list-style-type: none">• Nuclear DNA – ForenSeq DNA Signature Prep Kit data• mtDNA – ForenSeq mtDNA Control Region Kit data
16:15	Lecture: Implementation & Forensic Application Expansion <ul style="list-style-type: none">• Validation considerations• Implementation case studies• Application expansion opportunities
16:45	Host & Invited Laboratory Lectures: Insert title and highlights <ul style="list-style-type: none">• Highlight - Laurence Devesse (Age determination, Body fluid/sample type identification .To be Determined.
17:30	Workshop Close
